

Assumption Catholic School

2025 – 2026

Supply List & Technology Plan

We are excited to introduce Assumption School's updated **Technology Plan for the 2025–26 school year**—a forward-thinking initiative designed to support student learning while ensuring responsible and safe use of digital tools. Our updated plan strengthens our ability to manage, monitor, and maintain all student devices. With this system in place, teachers and administrators will be able to see how devices are being used during the school day and ensure that students only access instructionally valuable websites and resources.

Device Access by Grade Level

To ensure age-appropriate use and learning:

- Kindergarten through 2nd Grade students will use school-managed iPads that remain on campus.
- 3rd through 8th Grade students will be assigned school-provided Chromebooks.
- Students in 5th grade are allowed to take their computers home on a limited basis
- Students in 6th through 8th Grade will be allowed to take devices home regularly
- All devices will be regularly maintained and updated by the school to keep them secure and effective.

Why This Matters

This plan ensures:

- A safe and secure online environment for all students
- Equal access to reliable, up-to-date technology
- Minimized distractions and focused learning through content controls
- A strong foundation in digital citizenship and responsibility

Technology Fee

To sustain this program, a \$100 technology fee will be applied to all students in grades K–8. This fee will help cover the cost of equipment upkeep, software licenses, and necessary upgrades so that students continue to benefit from a high-quality digital learning environment. This fee will be due on October 1st or paid in 9 monthly payments.

We are also pleased to announce that we will be partnering with **CRD Solutions Inc.**, a trusted IT firm that will provide expert support and ensure our technology program runs smoothly and securely.

We look forward to providing your child with a safe, supportive, and engaging digital learning experience as part of our ongoing commitment to academic excellence.
